ELLA ROBINSON
SOFTWARE DEVELOPER

Profile

Kia ora! I'm a Kiwi software developer with a passion for improving accessibility and efficiency. My background in political conflict, philosophy, and economics brings a critical thinking perspective to exploring technology's potential to enhance quality of life. I believe that positive results are inevitable when we put the power of caring and passion for others in all that we do. Check out my project, Two Minds One, for an example. www.twominds.one

EXPERIENCE

FULL STACK DEVELOPER | TRAINEE
Dev Academy Aotearoa
Feb 2023 - May 2023

As a **leader** in the **weekly team projects,** including the final project 'Gallerina', I utilised **agile methodologies** to optimise **teamwork** through **communication** and **coordination**, fostering **trust** and learning **nonviolent communication, feedback,** and **peer programming**. Some of the technologies I used include **React**, **Redux**, **Typescript**, **Javascript**, **RESTful APIs**, **SQLite**, **Knex**, **TDD**, and **unit testing** to develop **Full Stack** applications. You can visit Gallerina here: **INSERT LINK**

RETAIL SALES ASSISTANT
Working Style
Mar 2022 - Jan 2023

Maintained **high standards** of **communication** with clients whilst **balancing multiple tasks**. This enabled me to practice **resilience** in **challenging situations** and to master **adaptation**, **composure**, and **perseverance** in a continually changing and high stress environment. I additionally upheld **uncompromising standards** of merchandising through **extreme attention to detail**.

TEMPORARY FRONT OF HOUSE MANAGER
Quinn Recruitment | Remuera Gardens Retirement Village
Nov 2021 - Feb 2022

Exercised **leadership** and **problem-solving** skills everyday through managing staff and organising events. In order to **manage the workload effectively** and to set an example, I maintained high standards of **time management** and **organisation skills.**
